Description

- Skilled level: **Advanced beginner.**
- This pattern starts with the bottom, then the body and the handle.
 - After that, adding the ribbon to the bag as the final touch.
- **Watch the videos** as they contain important information and details that are helpful!!!
- Use a **stitch marker** to keep the same amount of stitches each row.
- Crochet with your **right side** out for all parts, meaning the tail from the foundation row is facing **left**.
- Ch 1 counts as turning chain and Ch 3 counts as 1 dc.
 - Ch 3 = 1 dc = 1 stitch
 - Ch 3 at the end of the row = 1st stitch for the dc row.
 - **In all dc rows, start from the 2nd stitch.**
- Weave in the loose ends as work progresses.
- You can add a lining if using soft yarn so it doesn't stretch too much.

Stitch

- This is similar to **the Jacob's ladder stitch** yet the Jacob's ladder stitch starts with dc and we start with sc here.
- The Jacob's ladder stitch is done in the **multiples of odd number**. (In this case, we are working with the multiples of 9, so 9 stitches as 1 group.)
- For examples, if you want to make the bag in a **smaller** size, work with multiples of 7. 7 stitches as 1 group. Then there should be 6 stitches between the chains and ch 10 in the 7th stitch.
 - On the other hand, if you want to make the bag in a **bigger** size, work with the multiples of 11 (or even bigger odd number). 11 stitches as 1 group. Then there should be 10 stitches between the chains and ch 10 in the 11th stitch.
- If you change the number of the stitches, change the size of the bottom. (Inc or dec the number of row)

1. Ch 10

2. Push the hook through the last sc like so when you sl st after ch 10.

3. Yarn over your hook and pull through all the loops left on the hook.

In the 2nd row, when dc on the stitch with the chains, yarn over, push the hook from the back to the front, and go through the middle of the loop, then finish it like a regular dc.
